### Overview

#### A Leading Multi-National Oil & Gas Company

A global Oil & Gas giant that has operated in Nigeria for years and having added more than 3billion barrels of oil to Nigeria's production since starting operations locally and one of the operators of the NNPC joint venture. Active in more than 100 countries, over 100,000 employees, and are committed to better energy that is safer, more affordable, cleaner and accessible to as many people as possible.

### Business Challenge

#### Enterprise storage refresh with strict timelines and integration into the global storage network.

The Company needed to refresh it's enterprise storage and needed to do that fast with a necessary requirement for making sure that local IOC storage being implemented is integrated into the global storage network of the parent company while making sure that Data access is role-based and secure.

## Solution

### FPG FlexInfra

FPG Technologies **FlexInfra** product (storage Infrastructure deployment methodology), a module of the FPG CIM (Cloud, Infrastructure & Mobility Solution) was implemented based on the NetAPP FAS storage platform.

Through experienced project management practices, knowledgeable team and professional delivery models by FPG, the Company was able to meet project timelines, quality and budget. The solution and deployment met the global integration requirement as well as the Data security requirements amongst other Data management and flexibility requirements. Our commitment to people development and go-beyond culture ensure that your team will be reap value from our deployments working with the best people there are.

FPG FlexInfra delivers all things Infrastructure with choice – from Enterprise Servers, Storage and Data management to Asset visibility, Capacity management and enabling full Datacenter operations.

## Benefits

### **A flawless project delivery ensure that the Company met their business targets.**

The innovative NetApp storage platform and the tested and trusted FPG project delivery methodologies ensured that not only did we meet project timelines, but we did so to quality and budget. The global integration requirement became complexity made easy. The Company enjoyed flexible but secure access to Data with app Applications fully functional as before. Application startup fears were completely overcome. The Project team delivered to the business right on time!
