FPG TECHNOLOGIES & SOLUTIONS LIMITED HOLDS IT SECURITY SEMINAR TAGGED ‘EVOLVING CYBER THREATS: PROTECTING THE ENTERPRISE’ IN LAGOS

Cyber security is essential in today’s marketplace. Organisations in Nigeria require security solutions that aid them secure their data and conduct their businesses in a safe and secure online environment.

FPG Technologies & Solutions Limited with its technology solutions partners recently hosted Chief Information Officers (CIOs), Chief Information Security Officers (CISOs) and other business and IT executives in a world class seminar, discussing current IT security trends and showcasing IT security solutions strategically aimed at protecting the enterprise from cyber threats.

The seminar was organised by FPG Technologies and Solutions, partnering Industry experts - Safenet, ThreatMetrix, CyberArk and FireEye to provide cutting edge security solutions to mitigate threats for enterprise organisations in Nigeria.

In attendance were representatives across Banking, Insurance, Government, Oil and Gas, Telcos and Manufacturing sectors respectively.

According to Rex Mafiana, CEO of FPG Technologies & Solutions, organisations must make cyber security a priority, customer focused organisations have an obligation to protect their businesses, brands and customers from known and unknown cyber-attacks and or fraud.

Cyber-threat is a challenge which cuts across all sectors, also involving a varied range of stakeholders. Cyber threats continue to grow in scope and complexity and can exact significant damage- reputational, monetary or manipulations of control systems thereby costing organisations customer confidence and brand value.

FPG Technologies and Solutions Limited helps organisations eliminate vulnerability to cyber threats by providing complete protection online and in corporate networks.
