

**FPG TECHNOLOGIES & SOLUTIONS LIMITED**

PRESS RELEASE

15TH AUGUST 2017

FPG TECHNOLOGIES & QUEST HOLDS CUSTOMER EVENT TAGGED: JOIN THE INNOVATION:

FPG Technologies & Solutions Limited with its technology solutions partner Quest recently hosted business and IT executives in an event, aimed at showcasing software solutions that help organizations turn data into insights quicker, secure and maintain their IT administration, modernize their infrastructure faster for the cloud and optimize the IIT application experience. In attendance were representatives from Banking, Insurance, Government, Oil and Gas, Telcos and Manufacturing sectors respectively.

Rex Mafiana CEO of FPG Technologies & Solutions Limited reiterated FPG's commitment to customer success. "FPG is primarily focused on extreme business agility and confidence. We are committed to empowering organizations to be more innovative, agile and responsive to market changes.

"We have partnered with Quest; our visions and strategies are aligned around Innovation. Quest System management software automates and simplifies the work being done in more than 100k organizations worldwide. These solutions ensure organizations improve efficiency, become data driven, spend less on data management, slash application and data recovery time and accelerate an easy migration to cloud with tools used to control, protect and modernize over 180 million user accounts globally"

Also speaking at the event, Rolf Elvemo, Platform Management Solutions Architect for Quest stated "Quest enables organizations to stay secure and data driven with an ability to harnesses the cloud and gain control of every device that touches its network. We provide database management software tools that simplify complexity and drive performance. Quest empowers organizations by helping them spend less time on IT administration and more time on innovation. "We help organizations turn data into insight, modernize their system faster, gain control of, and optimize the application experience "

"Organizations are using the cloud to establish a modern, innovative IT environment with operational agility and business advantage. Today's database technology is becoming increasingly complex and supports previously unthinkable data volumes – all driven by the demands of today's always-on economy. Our backup and recovery solutions help you transform your IT infrastructure as you adopt cloud, mobile applications, and big data projects. Our scalable backup and recovery solutions cut backup windows from hours to minutes. Protect anything — systems, apps, and data — anywhere, whether it's physical, virtual and or in the cloud. Back up physical and virtual machines with either agent-based or agentless backup, for the best of both worlds. Plus, our broad and flexible portfolio lets you choose the speed at which you recover your data to meet business-driven SLAs, as well as choose your levels of protection based on how vital your data and applications are to the business." Added Territory Manager Ben Young.
